

Document on ChatBOT

App.py

If u run the code, a server will open in your google chrome or another website

<http://127.0.0.1:5000/>

Output:

Pretty-print ☐

```
{"message": "Welcome to the Chatbot API. Use POST /chat to interact."}
```

After this if you run a command in your cmd :

```
curl -X POST "http://127.0.0.1:5000/chat" -H "Content-Type: application/json" -d '{"question": "What is AI?"}'
```

The question is What is AI?

In cmd you will get an out has,

```
C:\Users\shara\Desktop\CHATBOT>curl -X POST "http://127.0.0.1:5000/chat" -H "Content-Type: application/json" -d '{"question": "What is AI?"}'
{"answer": "What is AI?\n\nAI is a mathematical system which is the human's way of life. Its main goal is to automate the human process. AI itself is merely the human's way of life.\n\nIn AI, there are many different aspects that make it different from the way we live and enjoy our lives. Here are a few of them:\n\nProcessing : One is able to take steps to create more meaningful results. For example, if the human is running a system,"}
```

We got the answer – The definition of AI.
